CP Lakeshore SC

Lakeshore Skating Club
STAR ACADEMY (previously the Junior Star Group)
Registration Information Fall Winter 2018/2019

Lakeshore Skating Club is the result of two historic skating clubs, Kirkland FSC and Beaconsfield FSC, merging together. With well over 100 years of coaching experience between them, and a choice of 2 rinks, Lakeshore SC promises to offer one of the best of Skate Canada's skating programs around.

The Star Academy is for skaters who have passed the full CanSkate Badge 5 up to Star 3. This program teaches skaters figure skating skills in a fun, group environment. Part of the one-hour session is spent in smaller groups working on skills specific to the skater's level. This class is offered once a week on Wednesdays at 4:00pm at the Beaconsfield Arena.

The Star Academy program includes all coaching fees, except for any additional fees for competitions and/or private lessons. It is highly recommend that skaters supplement their group lessons with private or semi-private lessons in order to advance more quickly. Please see the Star Skate program & Registration form for more details on how to arrange for private lessons. Skaters must have figure skates and be dressed appropriately for their group lessons in leggings and/or skating skirt and track pants/loose pants (no jeans) and jacket for boys. Club Jackets and leggings are not included in the cost of the program but are available for purchase at in-person Registration days or at the first day of class.

Non-Skating Days: Please take note of the following non-skating days in your calendars.

- December 24th to 31st 2018 inclusively and January 1st 2019.

Skates:

It is important that Skaters have proper figure skates to participate in this program. No hockey skates. The most important factor is the quality and support of the boot.

- Avoid purchasing skates a size larger, skates should fit with ½" toe space. Skates that are too big do not provide the proper ankle support and may cause blisters from the foot rubbing the inside of the boot.
- When buying skates look for good ankle support. Your child must be able to stand or walk in their skates without their ankles turning inward. The skates must be laced as to allow the skater to move their toes all while holding the ankle properly. Do not tighten the toes too much, but to tighten the ankle and the instep properly.
- **NO Molded plastic or vinyl skates with Velcro fasteners**. Proper figure skates are required.
- If buying 'used' figure skates make sure the toe pick has not been removed, they are needed.
- Do not let your child walk on hard surfaces while wearing their skates as it can damage the blades. Make sure to use hard skate guards while walking around.
- Sharpen new skates as soon as they are bought. New skates are often 'factory' sharpened but this not adequate for the ice. Blades should be sharpened by a professional figure skating blade Sharpener – not a hockey blade sharpener. The rocker and the picks are the most important part of the blade and the quality of sharpening does affect how a child performs on ice.
- Wipe the blades dry with a towel after every use and store skates with 'soft' skate covers. Skates stored with hard plastic skate guards will cause the blades to rust.
- **All skates should be sharpened before the first class and after every 20 hours of usage.**

Improperly laced skates can result in premature breakdown of your skate boot.
